

Describing 3D shapes

Grade 2 Geometry Worksheet

Draw a line connecting each description to the shape it describes.

1) This shape has no vertices and no faces; it does have curves.

2) This shape has no vertices and 2 faces; it also has curves.

3) This shape has 5 vertices and 5 faces.

4) This shape has one vertex and one face.

5) This shape has 8 vertices and 6 faces; all of the faces are the same size.

6) This shape has 8 vertices and 6 faces; the faces are not all the same size.
